

## UM-DAE CEBS Colloquia during Academic Year 2011-2012

10 April 2012	<b>Prof. Krishnendu Sengupta</b> History and Physics of Superconductivity
27 March 2012	<b>Prof. S. P. Sane</b> The Physics and Neurobiology of Insect Flight
20 March 2012	<b>Prof. Arvind Kumar</b> The Light Quantum Hypothesis: Early History
21 February 2012	<b>Prof. Umesh Garg</b> From the Atomic Nucleus to the Stars
14 February 2012	<b>Prof. Venkataramana</b> Primes in Arithmetic Progressions
31 January 2012	<b>Prof. V. M. Datar</b> The strange world of the neutrino
17 January 2012	<b>Prof. B. D. N. Rao</b> Understanding Biology: A Physicist's Dilemma
10 January 2012	<b>Prof. Varsha Bhattacharya</b> Surface Characterization Techniques: Role of Electrons
15 November 2011	<b>Prof. Arnab Bhattacharya</b> How to give a bad talk!
8 November 2011	<b>Prof. George Sudarshan</b> Faster than light particles
1 November 2011	<b>Dr. Deepa Bhartiya</b> An Introduction to Stem Cells
18 October 2011	<b>Prof. Sudhir Ghorpade</b> Solving Polynomial Equations – A Journey through Renaissance
4 October 2011	<b>Dr. Achanta Venu Gopal</b> Plasmonic crystals for enhancing optical nonlinearities
20 September 2011	<b>Prof. S. Krishnan</b> q-binomial theorem
16 September 2011	<b>Prof. G. Swarup</b> Great Discoveries in Radio Astronomy: Key Qs. Today
6 September 2011	<b>Prof. Sudipta Maiti</b> Alzheimer's and Parkinson's: Sticky issues about sticky protein
23 August 2011	<b>Prof. J. K. Verma</b> Polynomial Equations
