

Admission Notice for UM-DAE CEBS – 2026

- For admission to UM-DAE CEBS, the candidates qualified in NEST 2026 are required to register themselves on the following registration portal before **Wednesday, July 8, 2026 (23:00 IST)**:
<https://enrollonline.co.in/Registration/Apply/cbs>
- The login credentials for the registration portal will be communicated to all candidates who have qualified in NEST 2026 through SMS and email. (registered with NEST).
- **The candidates failing to register on the above portal before the deadline will be automatically disqualified from the admission process.** The admission queue of the registered candidates, as per the NEST 2026 merit ranks, will be published on the CEBS website.
- The admissions will be done stream-wise (Biology/Chemistry/Mathematics/Physics). During the registration, the candidates must specify their stream-preferences in the order priority — up to a maximum of four. Admission will be offered strictly based on these selected preferences — candidates will be considered only for the streams they have chosen, and in the order they have ranked them.
- Please note that any change of the order of preferences is not possible after the registration is completed.
- Admission will be offered in the order of these preferences. If a candidate is eligible and a seat is available in their first preferred stream, they will be allotted that stream. If not, their next preferred stream will be considered, and so on.
- The candidates WITHOUT MATHEMATICS as a subject in 11th and 12th standards will not be eligible for major in Mathematics and Physics streams.
- The candidates WITHOUT BIOLOGY as a subject in 11th and 12th standards will not be eligible for major in Biology stream.
- The major stream allocation will be done on the basis of NEST rank in the respective categories and the seat-matrix for the admission 2026.
- The initial rounds of admission will be conducted in an online mode starting from **Friday, July 17, 2026**.
- Candidates who accept and take admission in a lower preferred stream will remain eligible for upgradation to a higher preferred stream in subsequent rounds, subject to seat availability. Candidates who do not take admission when offered a seat will be removed from all further rounds of admission.
- Admission is confirmed only after the payment of fees.
- The instructions for first year integrated M.Sc. programme will begin from Monday, August 3, 2026.
- **The admission of candidates failing to report on campus on or before August 10, 2026, will be automatically cancelled.**
- In case of vacant seats, due to cancellations, a final round of admissions will be conducted on Tuesday, August 18, 2026 in an offline mode on CEBS premises.
- All queries related to admissions 2026 should be directed to admissions@cbs.ac.in.
